

FOR IMMEDIATE RELEASE:

Saebo, Inc. Signs Comprehensive Agreement with Medsource, LLC

*Relationship with Medsource Extends Saebo's Reach to
Midwestern States*

Charlotte, NC – Saebo, Inc., a leading international provider of upper-extremity stroke rehab products, announced today that it has signed a comprehensive product distribution agreement with Medsource, LLC, a leading provider of rehabilitation products in the Central United States. Under terms of the agreement, Medsource representatives may now offer the complete line of Saebo's innovative, upper-extremity stroke rehab products to their local and regional customers in the Midwest.

"We are very pleased to add Medsource to our growing list of regional distributors. They have been a quality distributor in these markets for many years, and their deep local relationships will create growth opportunities for Saebo that would otherwise be unavailable to us," commented Henry Hoffman, Saebo's Co-Founder and President. "Because they are also an accredited provider of rehabilitation equipment, they will be able to provide Saebo's products directly to their patients and bill the patient's third party insurance providers, including Medicare."

Craig Lissner, owner of Medsource, continued, "Adding Saebo's innovative line of functional, upper extremity stroke rehab devices to our product mix enables Medsource to expand our product offering to the hospitals, long term care and rehab facilities we serve, as well as provide Saebo's groundbreaking products directly to our patients. Having researched many of the other upper-extremity stroke rehab products in the market, we concluded that Saebo's line of products produces the best clinical outcomes in the most cost effective way."

About Saebo

Saebo, Inc. is a global provider of innovative rehabilitation products for stroke survivors and other neurologically impaired individuals. Headquartered in Charlotte, NC, the company was founded in 2001 by two occupational therapists specializing in stroke rehabilitation. Saebo's pioneering treatment protocols are based on new research documenting the brain's remarkable ability to "re-program" itself following injury. The company's neurological orthotic devices, *SaeboFlex* and *SaeboReach*, allow patients with very little residual hand function to forge new pathways in the brain to immediately begin grasping and releasing objects in high repetition exercises. Named *Most Valuable Product* in 2008 by *Therapy Times*, the *SaeboFlex* and *SaeboReach* are now offered at over 1,500 clinics and hospitals nationwide. Used within 22 of the "Top 25 Rehabilitation Hospitals" (*U.S. News & World Report*), Saebo products are eligible for reimbursement by Medicare and most commercial insurers. A network of over 5,500 Saebo-trained clinicians, spanning four continents, is committed to helping stroke survivors around the globe achieve a new level of independence. For more information, visit www.Saebo.com or contact Chris Klett at CKlett@Saebo.com.

About Medsource

MedSource, LLC was founded in 1996 and is a leading provider of non-invasive specialty medical products for orthopedics, physical therapy, and general rehabilitation. Our goal is to provide quality medical products and services that help patients achieve positive outcomes and improve their quality of life. MedSource takes pride in the high level of service we provide to our customers. We have built our reputation by focusing on our customer's needs and offering outstanding service and support. In fact, MedSource has one of the highest customer satisfaction ratings in the healthcare industry. MedSource is headquartered in Bloomington, Illinois and maintains sales and service staff in field locations throughout the Midwest. MedSource is contracted with most commercial insurance companies and Medicare. MedSource works directly with the insurance companies to verify insurance coverage and file insurance claims on behalf of our patients. MedSource is accredited by the Joint Commission and is a member of The VGM Group. For more information, please contact our corporate office at 888-510-5100.
