

FOR IMMEDIATE RELEASE:

Saebo, Inc. Adds Vital Care Technology, LLC to Growing List of Regional Distributors

Relationship with Vital Care Technology, LLC Extends Saebo's Reach in Seven Southeastern States

Charlotte, NC – Saebo, Inc., a leading international provider of upper-extremity stroke rehab products, announced today that it has signed a comprehensive product distribution agreement with Vital Care Technology, LLC, one of the largest providers of Rehabilitation equipment in the Southeastern United States. Under terms of the agreement, Vital Care representatives may now offer the complete line of Saebo's innovative, upper-extremity stroke rehab products to their local and regional customers in Tennessee, Georgia, Alabama, Mississippi, Kentucky, Arkansas, and Louisiana.

"We are very pleased to add Vital Care to our growing list of regional distributors. They have been a quality distributor in these markets for many years, and their deep local relationships will create growth opportunities for Saebo that would otherwise have been unavailable to us," commented Henry Hoffman, Saebo's Co-Founder and President.

Chris Linville, Founder of Vital Care continued, "Adding Saebo's innovative line of functional, upper extremity stroke rehab devices to our product mix enables Vital Care to offer a more comprehensive solution to our rehab, long term care and hospital customers. With VitalStim and now Saebo, we offer some of the most cutting edge rehab technologies in the market today. These new technologies help our customers achieve better patient outcomes in a very cost effective way."

About Saebo

Saebo, Inc. is a global provider of innovative rehabilitation products for stroke survivors and other neurologically impaired individuals. Headquartered in Charlotte, NC, the company was founded in 2001 by two

occupational therapists specializing in stroke rehabilitation. Saebo's pioneering treatment protocols are based on new research documenting the brain's remarkable ability to "re-program" itself following injury. The company's neurological orthotic devices, *SaeboFlex* and *SaeboReach*, allow patients with very little residual hand function to forge new pathways in the brain to immediately begin grasping and releasing objects in high repetition exercises. Named *Most Valuable Product* in 2008 by *Therapy Times*, the *SaeboFlex* and *SaeboReach* are now offered at over 1,500 clinics and hospitals nationwide. Used within 22 of the "Top 25 Rehabilitation Hospitals" (*U.S. News & World Report*), Saebo products are eligible for reimbursement by Medicare and most commercial insurers. A network of over 5,500 Saebo-trained clinicians, spanning four continents, is committed to helping stroke survivors around the globe achieve a new level of independence. For more information, visit www.Saebo.com or contact Chris Klett at CKlett@Saebo.com.

About Vital Care

VitalCare Technology was founded in 2002 as an independent dealer specializing in post acute care therapy solutions including modalities. Founded by a combat wounded veteran with 30 years of experience in therapy products, VitalCare has grown an extensive reputation through customer service, support, and dedication to patient care. Starting with the VitalStim program in its home town of Chattanooga TN VitalCare quickly expanded its products and services to the southeast and is now able to offer several therapeutic solutions and programs throughout the United States.

Being an independent dealer allows VitalCare the chance to investigate and choose therapy programs that are backed by research, on the cutting edge of technology, and produce better patient outcomes. Concentrating on these proven products and programs gives the representatives a chance to immerse themselves in studying them to provide the best clinical and marketing support possible. These are the exact things that brought VitalCare and Saebo together. From founder Chris Linville, "We are excited to add this technology to our neuro-rehab line of products and look forward to a long relationship with Saebo and in bringing more neuro-rehab products to facilities and therapists in the future."

VitalCare Technology is a multiple award winner for national sales and service and hopes to continue this high level of service with the Saebo program.
