Saebo Expands Distribution in Greece

Signs Exclusive Distributor for Greece and Cyprus

Charlotte, NC – November 17, 2008 - Saebo, Inc., a leading global provider of innovative stroke rehabilitation products, announced today that it has signed an exclusive agreement with **Artimelia, Ltd.**, to distribute and support Saebo's products throughout Greece and Cyprus. Based in Athens, **Artimelia** is responsible for clinical training in the region and has built a network of over 75 Saebo-trained therapists who provide both Saebo products, as well as follow-up rehab therapy, to stroke survivors throughout the region.

Artimelia President, Katherine Horafas, stated, "We are extremely excited about this opportunity with Saebo. We have worked extensively with their products for the last few years and believe that they provide the best alternative for affordable, upper extremity stroke rehab on the market today. Therapists and patients alike are very pleased with the results they achieve using the Saebo family of products. Our therapists love the products and feel they can finally offer quality intervention for the neurologically impaired arm and hand, improving their patients' functional independence. "

Henry Hoffman, President of Saebo continued, "We have worked closely with Katherine and her team over the years, and are excited to expand our relationship with them. They have helped build a great reputation for Saebo in Greece and Cyprus through their dedication and focus on quality patient outcomes. We look forward to continued growth throughout the region."

About Artimelia, Ltd.

Founded in 2005 and headquartered in Athens, Greece, Artimelia is a leading provider of stroke and neurological rehabilitation products and therapy services in the Mediterranean region. With a network of over 75 therapists trained in the fitting and use of Saebo's products, Artemilia is the largest Saebo distributor in Europe outside of the United Kingdom. The company also offers intensive, one week rehabilitation training using Saebo's products and programs, for those patients interested in a more concentrated rehab regimen. Artimelia's goal is to optimize patients' functional movement and independence, ultimately improving their quality of life, utilizing innovative therapy intervention and pioneering neurorehab products. Clinical research is also a priority for Artimelia, aspiring to develop therapy protocols to bridge the gap between therapeutic techniques and

functionally significant outcomes. For more information about Artimelia, contact Katherine Horafas at kathyh@hol.gr or khorafas@saebo.com.

About Saebo, Inc.

Saebo, Inc. is a global provider of innovative rehabilitation products for stroke survivors and other neurologically impaired individuals. Headquartered in Charlotte, NC, the company was founded in 2001 by two occupational therapists specializing in stroke rehabilitation. As the leading cause of long-term disability in the U.S., stroke affects over 700,000 Americans every year, leaving many with crippling side effects, including the loss of hand function. Saebo's pioneering treatment protocols are based on new research documenting the brain's remarkable ability to "re-program" itself following injury. The company's neurological orthotic devices, including the ground-breaking *SaeboFlex* and *SaeboReach*, allow patients with very little residual hand function to immediately begin grasping and releasing objects in high repetition exercises, thereby forging new pathways in the brain. Named *Most Valuable Product* in 2008 by *Therapy Times*, the *SaeboFlex* and *SaeboReach* are now offered as treatment options at over 1,500 clinics and hospitals nationwide, including 22 of the "Top 25 Rehabilitation Hospitals" as ranked by *U.S. News & World Report*. Most Saebo products are eligible for reimbursement by Medicare and most commercial insurers. With a network of over 3,400 trained clinicians spanning four continents, Saebo is committed to helping stroke survivors around the globe achieve a new level of independence.
