

No Plateau In Sight®

SaeboStim Spa

A neuropathy foot bath/spa that provides extremely safe, low-level electrical stimulation. Designed to improve sensation, reduce spasticity, improve function, and decrease pain in the foot.

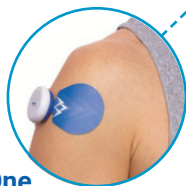

SaeboStim Pro

A neuromuscular electrical stimulation device with adjustable intensity levels, pulse widths, and frequency settings designed to strengthen muscles, treat weakness, and reduce pain.

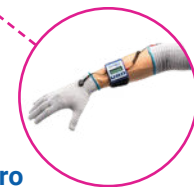

SaeboStep

A lightweight, uniquely designed foot drop brace that provides convenience and comfort while offering optimum foot clearance and support during walking.

SaeboStim One

A simple wireless electrical stimulation device for shoulder subluxation as well as other parts of the body.

SaeboStim Micro

A device that provides low-level sensory electrical stimulation to the arm and hand using a specialized Electro-Mesh Garment.

An appropriate home-based treatment program is essential to maximizing your recovery. At Saebo, we have pioneered a complete range of evidence-based solutions designed to challenge you throughout all stages of your recovery.
